
Afore Received Order From A Major German Sensor Supplier

Afore Oy, a Company based in Lieto, Finland, and a fully owned subsidiary of AEM Holdings Ltd has announced today that it has received an order for an AIOLOS pressure sensor wafer probe station from a major German sensor supplier in the automotive and consumer industries.

The order was placed following a successful evaluation by the customer. The AIOLOS system is due to be commissioned by the end of 2019.

AIOLOS is a versatile, high throughput and fully automated wafer probe station which allows test and calibration of MEMS pressure sensors and other devices at wafer level. It enables users to stimulate the sensors with physical stimuli such as vacuum or pressure as well as defined temperature levels with very high accuracy. Due to the modularity of the system, it can be used for both R&D and production function.

The advantages of using a wafer probe station as compared to traditional final test systems include higher throughput and the possibility to perform final test and calibration at wafer level for chip scale packages.

About Afore

Founded in 1995 and located in Finland AFORE is a pioneer supplier of test equipment for the MEMS industry and related markets. We are specialized in providing specialized wafer probers for sensor and semiconductor testing in wafer level. Being part of the AEM Group, we take pride in providing innovative, engineering-focused solutions and developing strong partnerships with customers and associates to cater to their manufacturing needs through our global engineering service support network and innovative people. www.afore.fi

About AEM Holdings Ltd

AEM Holdings Ltd is listed on the main board of the Singapore Exchange (Reuters: AEM.SI; Bloomberg: AEM SP). AEM Holdings Ltd ("AEM") aims to be among the world's leading companies providing solutions in equipment systems; precision components and related manufacturing services across various industries. AEM takes pride in providing innovative, engineering-focused solutions and developing strong partnerships with customers and associates to cater to their manufacturing needs through our global engineering service support network and innovative people. Currently, AEM has 4 manufacturing plants located in Singapore, Malaysia (Penang), China (Suzhou) and Finland (Lieto). Through our network of sales offices, associates and distributors, we have a global market presence spanning Asia, Europe and the United States. www.aem.com.sg
